Enter your query: Did Donald Trump say something about Elon Musk recently?

[WSJ, CNN, NPR, AP]

Yes, Donald Trump has been mentioned in relation to Elon Musk recently, according to news reports. Here's what I found:

- * ****A feud:**** CNN (Cable News Network) reports on a timeline of the feud between Elon Musk and Donald Trump.
- * ****Tesla:**** The Wall Street Journal (WSJ) reports that Trump is considering getting rid of his red Tesla (Tesla, Inc. is an American multinational automotive and clean energy company).
- * ****Truce hopes:**** Investor's Business Daily mentions potential "Musk-Trump truce hopes."
- * ****NASA and Russia:**** The Associated Press (AP) reports on Elon Musk's threat to withdraw a Dragon capsule, which would leave NASA (National Aeronautics and Space Administration) with only Russia as an option for something (unspecified in the headline).

So, to answer your question, yes, Donald Trump has been mentioned in connection with Elon Musk recently in the news.

What is your question?

Did Trump buy a Tesla car recently?

Based on the news I've reviewed, there's no indication that Donald Trump has recently purchased a Tesla car. However, the news does highlight an interesting, and at times contentious, relationship between Trump and Elon Musk, the CEO of Tesla.

Specifically, I see reports of:

- * A public feud between Donald Trump and Elon Musk
- * Elon Musk criticizing Trump's policies and actions.
- * Mentions of Tesla in relation to electric vehicle (EV) charger funding and general market trends.

I hope this helps!

[76]: `myModel.answer()`

What is your question?

Has RCB won the IPL?

Yes, Royal Challengers Bengaluru (RCB) has won the IPL!

Several sources confirm that RCB defeated Punjab Kings (PBKS) in the final of the Indian Premier League (IPL) 2025 to win their maiden title. It was a historic win that ended their 18-year wait.

Some headlines even mention the victory celebrations and the dedication of the title to former players.

Sources include:

- * BBC News
- * Al Jazeera English
- * The Times of India
- * The Hillstimes.in

[77]: `myModel.answer()`

What is your question?

Is Pakistan testing their nukes?

Based on the news headlines, there is no direct confirmation of Pakistan currently testing their nuclear weapons. However, several articles highlight concerns and discussions around Pakistan's nuclear arsenal, particularly in the context of escalating tensions with India. These concerns include:

- * ****Nuclear Security:**** Questions are being raised about the safety and security of Pakistan's nuclear weapons, with some suggesting international oversight by the IAEA (International Atomic Energy Agency).
- * ****Conflict with India:**** Several headlines discuss the risk of nuclear conflict between India and Pakistan, with some reporting on missile strikes and retaliation.
- * ****Earthquake:**** A recent earthquake in Pakistan sparked social media speculation about nuclear tests, although experts dismissed this.

[78]: `myModel.answer()`

What is your question?

Did Bitcoin reach its all time high in the last month? What was it? What is it at now?

Okay, I can help you with that.

Based on the information I have access to, here's what I found regarding Bitcoin's recent performance:

- * ****All-Time High:**** Yes, Bitcoin did reach a new all-time high in the last month. Some sources indicate it surpassed `\$110,000`.
- * ****Recent Price:**** Some sources specify prices of Bitcoin above \$100,000, specifically citing figures around `\$102,000`, `\$105,000`, `\$107,000`, `\$109,400`, and even `\$111,000`.
- * ****Potential Future Price:**** There are even more optimistic predictions, with one options trade wagering on Bitcoin reaching `\$300,000` by the end of June and some analysts predicting that Bitcoin might be worth an infinite amount of USD (United States Dollar).

It is important to remember that the cryptocurrency market is volatile, and these prices can change rapidly.

[94]: `myModel.answer()`

What is your question?

Did Bitcoin reach its all time high in the last month? What was it? What is it at now?

Q: "Bitcoin all time high" OR "Bitcoin price"

Yes, Bitcoin did reach a new all-time high in the last month.

- * ****All-Time High:**** Multiple sources indicate that Bitcoin reached a new all-time high (ATH) of around ****\$111,000**** in May. Sources include Cointelegraph, Yahoo Entertainment, and newsBTC. Some articles mention the high was near the \$110,000 mark.

- * ****Current Price:**** Several articles mention Bitcoin fluctuating around the \$100,000 - \$105,000 range, with some dips below \$100,000 after the high. The price seems to be volatile.

Please note that cryptocurrency values fluctuate rapidly, and the current price may have changed since the latest news reports.

[95]: `myModel.answer()`

What is your question?

Who is Canada's new President? When was he appointed? Did he make any statement about India>

Q: "Canada" AND "President" AND "appointed" AND ("statement" OR "India")

Based on the news articles, here's what I found:

* **Who is Canada's new President?** The news articles indicate that **Mark Carney** is the new Prime Minister of Canada.

* **When was he appointed?** According to one article, the announcement of his cabinet was made around **May 13, 2025**.

* **Did he make any statement about India?** I did not find any information about statements he may have made regarding India in the provided articles.

I hope this helps!

```
[96]: myModel.answer()
```

What is your question?

Did the new Canadian President make any statement about India?

Q: "Canadian President" AND India

Hello! I can help you with that.

Based on my current information, I haven't found any specific statements made by the new Canadian President regarding India.

It's worth noting that political situations and news are constantly evolving. If you'd like to stay updated, I recommend checking credible news sources like:

* **Reuters:** (<https://www.reuters.com/>)

* **Associated Press (AP):** (<https://apnews.com/>)

* **Canadian Broadcasting Corporation (CBC):** (<https://www.cbc.ca/news>)

You can also set up Google News alerts for "Canada India relations" or "[New Canadian President's Name] India" to receive notifications when new articles are published.

Title: Carney invites Modi to G7, signalling thaw in relations

Publish Date: 2025-06-06 21:12:09+00:00

Source: www.theguardian.com

Title: Canada's PM faces backlash for inviting India's Narendra Modi for G7 summit

Summary: Mark Carney declined to answer if he believed Indian PM had a role in murder of Sikh activist Hardeep Singh Nijjar
Canada's prime minister Mark Carney has defended his decision to invite India's prime minister Narendra Modi to the upcoming G7 summit in Alberta, despite Canada's federal police's conclusion that the murder of a prominent Sikh activist in British Columbia was orchestrated by the "highest levels" of the Indian government. Carney declined to answer reporters' questions over whether he believed Modi had a role in the assassination of Hardeep Singh Nijjar - a killing on Canadian soil that

shattered relations between the two countries. Continue reading...

Title: UK will slump to 1% growth next year as Trump tariffs bite, says OECD

Summary: US, Mexico and Canada economies likely to be worst affected by ongoing tariff battles, says forecast
Business live - latest updates
The UK's economic growth will be slower than expected this year and next as the damage caused by Donald Trump's tariff war hits trade and investment, according to a gloomy forecast by the Organisation for Economic Co-operation and Development (OECD). The international body downgraded its expectations for this year and next from a forecast made in March, pushing down UK growth from 1.4% to 1.2% in 2025 and from 1.2% to 1% next year. Constraints on Whitehall spending and higher than expected inflation also played a part in a downgrade, the OECD said. Continue reading...

What is your question?

Is Donald Trump in plans to buy Greenland?

Q: "Donald Trump" AND Greenland

Q2: Donald Trump and Greenland

Based on the news reports from May and June 2025, it appears Donald Trump, as President, has expressed interest in acquiring Greenland.

Here's a summary of the situation:

* **Trump's Interest:** News sources indicate that President Trump has considered annexing Greenland, and the U.S. has been increasing its intelligence gathering efforts in Greenland.

* **Denmark's Response:** Denmark, which has sovereignty over Greenland, has expressed strong opposition to the idea of the U.S. acquiring Greenland. The Danish Prime Minister stated, "you cannot spy against an ally," and the country summoned the U.S. ambassador for an explanation regarding U.S. intelligence gathering in Greenland.

* **Greenland's Perspective:** Greenland seems to be re-evaluating its global ties, including considering Chinese investments in mining and potentially seeking closer cooperation with the European Union.

Sources like the International Business Times, Newsweek, RT, and others have reported on these developments.

It seems President Trump's interest in Greenland has led to diplomatic tensions and a reassessment of Greenland's international relations.

What is your question?

Who is Canada's new President? When was he appointed? Did he make any statement about India?

Q: "Canada" AND "President" AND ("appointed" OR "statement") AND "India"

Q2: Canada and President and India

Okay, here's what I can tell you about Canada's leadership and relations with India, based on the latest news:

* **Prime Minister:** Mark Carney is currently the Prime Minister of Canada.

* **Appointment:** Based on news, Carney was already Prime Minister as of May 8, 2025.

* **Statements about India:** Prime Minister Carney has recently invited Indian Prime Minister Narendra Modi to the upcoming G7 summit in Alberta. However, this invitation is facing backlash due to concerns about the Indian government's alleged role in the murder of a Sikh activist in Canada. The Canadian federal police have concluded that the murder of Hardeep Singh Nijjar, a Sikh activist was orchestrated by the "highest levels" of the Indian government.

I hope this is helpful.

```

What is your question?

What has been happening between Russia and Ukraine recently?

Q: "Russia" AND "Ukraine"

Here's a summary of recent events between Russia and Ukraine:

Military Actions:

- Drone Warfare: There's been a significant increase in drone attacks from both sides. Ukraine launched a large-scale drone operation called "Operation Spiderweb," targeting military aircraft and airfields deep inside Russia. Russia has responded with massive drone and missile attacks on Ukrainian cities, including Kyiv. Russia is also using new drone tactics, such as dive-bombing with Iranian-designed Shahed drones.
- Airstrikes: Satellite images confirm heavy damage to Russian bases following Ukrainian attacks. Russia has also launched major aerial attacks on the Ukrainian capital, causing injuries and casualties.
- Weapons and Tactics: Russia is reportedly using fibre optic drones to gain an edge. Ukraine is utilizing AI in its drones to find and strike targets even when signal is lost. Western countries are increasing production of weapons like the AASM Hammer bombs, which Ukraine is using effectively against Russia.

Diplomatic Efforts and International Involvement:

- Peace Talks: There have been attempts at peace talks between Russia and Ukraine, including discussions in Turkey. However, the two sides remain far apart on key issues. Putin did not attend some of the peace talks.
- Ceasefire Calls: Global leaders have urged Russia to agree to a ceasefire, but these calls have not yet been successful.
- US Involvement: Former U.S. President Trump has been in contact with Putin and Zelenskyy, discussing potential peace initiatives. President Trump has expressed dissatisfaction with Putin's actions and has even threatened sanctions on both Ukraine and Russia if they fail to reach an agreement. There are indications of differing

approaches within the U.S. government regarding the conflict, with some suggesting the U.S. could withdraw support from Ukraine.

- International Aid and Funding: Data suggests that Russia's fossil fuel revenues are significantly higher than the aid allocated to Ukraine.

Other Developments:

- Prisoner Exchanges: Ukraine and Russia have conducted prisoner of war exchanges, including a recent large-scale swap.
- Internal Issues in Russia: Russia has restricted internet access in some regions, particularly during Victory Day celebrations. There are also reports of attacks on bridges within Russia.

Sources: BBC News, The Verge, Wired, NPR, Gizmodo, Yahoo Entertainment, Business Insider, CNN, Time, ABC News.

[13]: `myModel.answer(upToDate = True)`

What is your question?

Why did Canada's new Prime Minister invite India to the G7 Summit? Where will it be held?

Q: Canada AND "Prime Minister" AND India AND G7

Q2: Canada and India and G7 Summit

Based on the news, here's what I know about India and the G7 Summit:

- Invitation and Attendance: It seems there's some conflicting information. Some sources indicate that Prime Minister Narendra Modi has received and accepted an invitation from Canadian Prime Minister Mark Carney to attend the 51st G7 summit. (Source: The Times of India, BusinessLine, www.yahoo.com) However, other reports suggest that Modi is unlikely to attend due to strained relations between Canada and India, particularly following allegations of India's involvement in the killing of Hardeep Singh Nijjar. (Source: The Times of India, Financial Post)
- Location: The 51st G7 summit is expected to be held in Kananaskis, Canada. (Source: The Times of India)
- Reason for invitation: According to one report, relations between India and Canada, as "vibrant democracies with

strong people-to-people ties, will engage with renewed vigour based on mutual respect and shared interests".

(Source: BusinessLine)

It's worth noting that some Sikh groups have expressed opposition to inviting Modi to the summit (Source: CBC News), and the Congress party has criticized India's potential exclusion as a diplomatic failure. (Source: The Times of India) Also Mark Carney is the new Prime Minister of Canada, not Mark Carney as the former Governor of the Bank of England.

[15]: myModel.answer(upToDate = True)
```

What is your question?

What is happening in North Sikkim?

Q: "North Sikkim"

Q2: North Sikkim

North Sikkim is currently facing a severe situation due to heavy monsoon rains, landslides, and floods. Here's a breakdown of what's happening:

- **Natural Disasters:** The region has been hit by significant rainfall, causing the Teesta River to surge and triggering landslides. Mangan district has been particularly affected, with the Sikkim government declaring the rainfall damage a 'disaster'. The India Meteorological Department (IMD) had issued a red alert for Mangan district due to the rising water level of the Teesta River, warning of potential floods and landslides.
- **Casualties and Rescue Operations:** A landslide in the Chatten area resulted in fatalities. Sadly, three Indian Army personnel died in a landslide, and initially six soldiers were missing but search and rescue operations led by National Disaster Response Force (NDRF) are ongoing. In a separate incident, a tourist vehicle plunged into the Teesta River, resulting in one death and eight missing persons who are still being searched for. A brave army officer, Lieutenant Shashank Tiwari, also tragically died while saving a soldier from drowning.
- **Stranded Tourists and Evacuations:** Approximately 1,500 tourists were stranded in North Sikkim due to blocked

roads and landslides. However, rescue operations have been underway. The Border Roads Organisation (BRO) restored some road connectivity, enabling the evacuation of over 1,600 tourists from Lachung. Helicopters have also been used to airlift tourists from affected areas like Chaten, with the first batch of tourists from Chaten successfully evacuated to Pakyong Airport. More than 100 tourists have been safely evacuated from Lachung. 59 tourists were airlifted as rescue operations resumed.

- Government Response: Prime Minister Narendra Modi has pledged support to Sikkim, assuring the Chief Minister of full central government assistance for relief and rehabilitation. Sikkim Chief Minister Prem Singh Tamang held a high-level meeting to assess the situation in landslide-hit Mangan district.
- Travel Disruptions: Tourist permits for North Sikkim, especially for destinations like Lachen and Lachung, have been suspended due to the heavy monsoon rains and landslides.

Sources include The Times of India, BusinessLine and Thehillstimes.in.

```
[17]: myModel.answer(upToDate = True)
```

What is your question?

How many army personnel have been rescued from North Sikkim today?

Q: +"army personnel" AND (rescued OR recovered) AND "North Sikkim"

Q2: army personnel and rescued and Sikkim

Based on available information, I don't have a specific number for army personnel rescued from North Sikkim today (June 7, 2025). However, I can provide some context from recent events:

- A few days ago (around June 3-4), a landslide hit an army camp in Chhaten, North Sikkim, and a team from the National Disaster Response Force (NDRF) - (NDRF) personnel were deployed to search for six missing soldiers. I don't have an update on the outcome of that search.
- There have been rescue operations in North Sikkim due to widespread rainfall, damage and landslides. On June 5th, 59 tourists were airlifted from the area.

It is possible that army personnel were among those rescued in these operations, but I do not have a confirmed number. To get the specific number you're looking for, I recommend checking official press releases from the Indian

Army or the NDRF.

[19]: `myModel.answer(upToDate = True)`

What is your question?

Who is the winner of Norway Chess title?

Q: "Norway Chess" AND (winner OR champion)

Q2: Norway and Chess

Based on the information available to me, it's still too early to definitively say who the overall winner of the Norway Chess 2025 tournament is. The tournament seems to have had several notable events and lead changes.

Here's what I can tell you, based on news reports through today, June 7, 2025:

- Gukesh Dommaraju (often referred to as D. Gukesh), the reigning world champion, has certainly made a splash. He achieved his first classical victory against Magnus Carlsen during the tournament. There were reports of Carlsen reacting strongly to this defeat. Gukesh's performance has put him in contention, and at one point was in sole second position but also had some losses.
- Magnus Carlsen, while experiencing some setbacks, including the loss to Gukesh and an Armageddon loss to Hikaru Nakamura, remains a top contender and even secured a win against Gukesh early in the tournament.
- Arjun Erigaisi also had a strong showing, including defeating Gukesh and at one point sharing the lead with Hikaru Nakamura.
- Hikaru Nakamura also performed well, including an Armageddon win over Carlsen, and at one point was joint leader with Erigaisi.

To get the final winner, you'll need to look for news reports specifically announcing the tournament's conclusion.

I recommend checking sources like The Times of India, Rediff.com, and other major news outlets that cover chess.

[20]: `myModel.answer(upToDate = True)`

What is your question?

Describe the sequence of events that lead to the India-Pakistan War? How did other countries react? What is the current situation?

Q: India AND Pakistan AND War

Q2: (India and Pakistan) and War

Okay, I can provide you with a summary of the events leading up to the recent India-Pakistan conflict, how other countries reacted, and the current situation based on available information.

Sequence of Events Leading to the Conflict:

The recent escalation appears to have been triggered by an attack on Hindu tourists in Kashmir in April 2025. India blamed Pakistan for the attack, which killed 26 people. This led to a series of events:

- 1 India's "Operation Sindoor": India launched missile strikes inside Pakistan and Pakistan-administered Kashmir, claiming they targeted terrorist infrastructure. Pakistan condemned these strikes as an "act of war." Initial reports indicated multiple targets were hit, resulting in casualties.
- 2 Pakistan's Retaliation: Pakistan authorized retaliation and launched its own operation, reportedly named "Bunyan Marsoos," which included missile strikes on Indian airbases. Pakistan also claimed to have downed numerous Indian drones over its cities.
- 3 Drone Warfare: Drone attacks and counter-attacks became a prominent feature of the conflict, marking a potentially dangerous new phase in the long-standing rivalry.
- 4 Escalation and Near All-Out War: The exchange of fire escalated, with both sides using artillery and missiles. Tensions rose significantly, bringing the two countries to the brink of a full-scale war, possibly the most serious fighting since 1971. Concerns grew about a potential nuclear conflict, given both nations possess nuclear weapons. There were reports of airlines rerouting flights to avoid Pakistani airspace. Furthermore, suspension of key water-sharing treaty was in place by India.

International Reaction:

- Calls for Restraint and Mediation: Many countries, including the United States and others, called for restraint from both sides and offered mediation to de-escalate tensions.

- US Involvement: The United States, under President Trump, played a role in ↪ brokering a ceasefire.
- Other Nations: Other nations also urged restraint and offered mediation to ease ↪ the tensions.
- Global Concern: The international community expressed serious concern about the ↪ potential for escalation, given that both India and Pakistan are nuclear powers.

Current Situation (as of early June 2025):

- Ceasefire: A ceasefire was agreed to after several days of intense fighting. ↪ The ceasefire was reportedly brokered with the help of the US.
- Fragile Truce: While the guns have fallen silent, the truce remains fragile, ↪ and residents along the border areas remain on edge.
- Continued Tensions: Both countries blame each other for escalating tensions, ↪ and the underlying issues, particularly the dispute over Kashmir, remain unresolved.
- Diplomatic War: A diplomatic offensive has begun, with both India and Pakistan ↪ seeking to shape global opinion.
- Water Dispute: The conflict has also raised concerns about the Indus Waters ↪ Treaty, with India suspending it and Pakistan concerned about potential water as a weapon.
- Trade Implications: The conflict has the potential to jeopardize trade deals, ↪ particularly between the US and both India and Pakistan. President Trump indicated that Pakistani officials ↪ were expected to visit the US to negotiate a trade deal.

In summary, the recent India-Pakistan conflict was a dangerous escalation of a ↪ long-standing rivalry, triggered by a specific attack in Kashmir and fueled by mutual accusations and military actions. ↪ While a ceasefire is in place, the situation remains tense, and the underlying issues need to be addressed to ↪ prevent future conflicts.

[21]: myModel.answer(upToDate = True)

What is your question?

What's the situation between Trump and Harvard? What are the precursors?

Q: "Trump" AND "Harvard"

Q2: Trump and Harvard

Based on current events, there's a significant conflict unfolding between the
↳ Trump administration and Harvard
University.

Here's the situation and the events leading up to it:

The Core Conflict:

- Restrictions on International Students: The Trump administration has taken
↳ actions to bar Harvard from enrolling
international students. This includes visa restrictions and a ban on their
↳ entry into the U.S., which Harvard is
challenging in court, claiming it's an illegal retaliatory step (ABC News, BBC
↳ News, Bloomberg). A judge has
temporarily blocked the ban (ABC News, Bloomberg).
- Federal Funding Cuts: The administration is moving to cancel remaining federal
↳ funds and contracts to Harvard,
potentially reallocating billions of dollars in grants to trade schools instead
↳ (ABC News, NPR).
- Demands for Information: Trump has demanded that Harvard provide a list of its
↳ international students, raising
concerns about potential discrimination and national security (Al Jazeera, NPR).

Precursors & Reasons for the Conflict:

- Ideological Differences: Some analyses suggest the conflict is rooted in the
↳ administration's desire to punish
liberal institutions (The Atlantic).
- "Anti-Semitism" Accusations: Trump has attacked Harvard as "very antisemitic,"
↳ although this claim is disputed
(Business Insider).
- Harvard's Perceived Disrespect: Trump has accused Harvard of treating the
↳ country with disrespect (ABC News).
- Student Visa Revocations The US says it will "aggressively revoke" Chinese
↳ student visas and has paused
interviews for all student visa applicants. Experts warn the moves could weaken
↳ American leadership in Science,
Technology, Engineering, and Mathematics (STEM) (Wired)

Underlying Tensions:

- University Research: There's a concern that the administration wants university
↳ research to align with its own
objectives (Gizmodo.com, The New Republic).
- Free Speech Concerns: Some critics argue that while Harvard defends free speech
↳ against the Trump

administration, it silences pro-Palestine voices (Al Jazeera).

It appears the conflict is escalating, with potentially far-reaching consequences
↳for Harvard, its international students, and the broader academic landscape in the U.S. (Time, Vox)

[22]: `myModel.answer(upToDate = True)`

What is your question?

Was Jalandhar targeted during the India-Pakistan conflict?

Q: "Jalandhar" AND (India OR Pakistan) AND (conflict OR war OR targeted)

Q2: India and Pakistan and Jalandhar

Yes, Jalandhar was indeed affected during the recent India-Pakistan conflict.

According to reports, blackout orders were enforced in Jalandhar following reports
↳of explosions, sirens, and drone sightings. While the government debunked claims of a drone attack directly in
↳Jalandhar, the city experienced these precautionary measures due to the overall heightened tensions.

Here are the sources that informed my answer.

- The Times of India: Provided information about blackout orders being enforced
↳in Jalandhar following reports of explosions, sirens, and drone sightings.
- Thehillstimes.in and The Times of India: Clarified that the government debunked
↳specific claims of a drone attack in Jalandhar.

[27]: `myModel.answer(upToDate = True)`

What is your question?

Tell me some recent situations where Trump supported India and cases where he did the opposite.

Q: +"Trump" AND ("India" OR "Indian")

Q2: Trump and India

Okay, I can provide you with some recent instances where Donald Trump's actions
↳and policies have either supported or opposed India, based on the news from the past month or so:

Situations Suggesting Support for India:

- Trade Deal Negotiations: There have been active discussions between India and the US to finalize an initial tranche of a bilateral trade agreement (BTA) aimed at enhancing market access and supply chain resilience (timesofindia.indiatimes.com). This indicates a willingness to engage with India on trade matters.
- Starlink Approval: Elon Musk's Starlink, a US-based satellite internet service, has received a key license in India, which suggests that the US government is not hindering its operation in India. Notably, Director of National Intelligence Tulsi Gabbard led a US delegation to a major security summit in Singapore, indicating a growing focus on the Indo-Pacific region (abcnews.go.com).
- Mediation Offers: Back in May, amid tensions between India and Pakistan, Trump offered to work with both countries on a Kashmir 'solution' and to mediate between the two (Al Jazeera).

Situations Suggesting Opposition or Negative Impact on India:

- Tariff Threats on iPhones Made in India: Trump has threatened Apple with tariffs of at least 25 percent on iPhones if the company continues to manufacture them in India instead of the US (The Verge, MacRumors, Gizmodo.com, 9to5Mac). He has expressed that he doesn't want Apple shifting its production to India.
- Potential Remittance Tax: A proposed 3.5% tax on remittances by foreign workers in the US could seriously impact India, as it is a top recipient of remittances (BBC News).
- Visa Restrictions: There are reports of declining numbers of Indian students in the US, potentially due to visa issues and job market uncertainties. Also, there have been reports about the US aggressively revoking visas for many Chinese students, which could set a precedent affecting international students, including those from India (timesofindia.indiatimes.com, NPR).
- Trade Tensions and Tariffs: More generally, Trump's approach to trade, including tariffs on goods from other countries like the European Union, and the UK, creates economic uncertainty (NPR).
- Tata Steel Exclusion: There were fears that Tata Steel could be excluded from the trade deal between Starmer and Trump (The Guardian).

- Trump-Musk spat: The Trump-Musk feud has slammed stocks and brought turbulence in many sectors (Finance.yahoo.com).

I hope this provides a comprehensive overview of recent situations.

[28]: myModel.answer(upToDate = True)

What is your question?

Tell me all recent instances of India being praised by countries.

Q: +"India" AND (praise OR commend OR laud OR "positive feedback")

Q2: India and praise

Okay, I have gathered some recent instances of countries and individuals praising India:

- International Energy Agency (IEA) Executive Director Fatih Birol lauded India's successful green energy transition and advised incentivizing electric vehicles (EVs) to reduce reliance on oil imports. (2025-06-02)
- Jean-Pierre Lacroix, the UN's top peacekeeping official, highlighted India's significant support for peacekeeping efforts, recognizing its role as a major troop and police contributor. He also emphasized India's leadership in ensuring accountability for crimes against peacekeepers. (2025-05-30)
- A UK travel blogger praised the Vande Bharat train for its cleanliness, space, and food. (2025-05-06)
- Following a recent ceasefire between India and Pakistan, the Ministry of Foreign Affairs of Ukraine welcomed the agreement, which was achieved with the constructive involvement of the United States of America. (2025-05-13)
- US President Donald Trump and his MAGA supporters applauded his efforts in brokering the India-Pakistan ceasefire, with many hailing him as a "Peace President." (2025-05-10)
- A Russian woman praised the Indian Army, calling India her "peaceful home." (2025-05-14)
- Following "Operation Sindoor," Pakistan's Prime Minister Shehbaz Sharif admitted that the BrahMos missile (jointly developed with Russia) caught them off guard, after it struck military bases deep inside Pakistan. (2025-05-30)
- Tripura Chief Minister Manik Saha congratulated Prime Minister Narendra Modi for leading the country to become

the fourth largest economy, surpassing Japan. (2025-05-26)
